

# White Knight

## Grout Pen Fact Sheet

---

White Knight Grout Pen is an amazingly simple but effective product. Use it to recreate fresh new white grout lines on painted tiles as the final step of your tile transformation or use the Grout Pen to refresh and re-whiten discoloured or faded grout on existing tiles. The specially shaped nib helps keeps lines neat and straight, with virtually no mess or clean up required.

### Suitable Surfaces

Painted or discoloured grout lines

### Preparation

Painted grout should be fully dry before applying the Grout Pen. If painting over discoloured grout, ensure it is free from grease, dirt and other contaminants before painting.

### Application Details

Shake well with cap on before use and depress the nib several times to get sufficient paint flow. Apply two coats at least one hour apart. Hold pen at sufficient angle to allow paint flow. On vertical surfaces, paint from the bottom and work upwards. The durability of the pen nib will decrease when used over unpainted grout. If paint colour thins, wipe nib with a soft cloth and depress the nib several times to encourage paint flow. Keep capped and horizontal when not in use.

### Coverage

Up to 37m of painted grout lines (one coat). Coverage will be reduced over unpainted grout.

### Drying Times

Recoat after 1 hour. Fully dry after 2 hours.

### Pack Sizes

5ml. White only.

### Health and Safety

Refer to Material Safety Data Sheet available by request on 131 686.

### HANDY HINT

Produces a white line that replicates the look of grout on coloured tile paint.
